

## WORKING PROCEDURES: WORKING WITH TASK AND TICKET

### TICKET

- Tickets include all the request information such as make payment, claim bill that overed charged, change PCP....
- Ticket needs to be associated with related Contacts and Deals accordingly (if any).
- Tickets need to ne assigned to support with due date.
- Tickets may have more than 1 tasks to complete.
- Tickets always have priority: High, Medium and Low:
- High: due date is within 24-48 hours to complete.
- Medium: due date within 3-5 days.
- Low: due date is more than 5 days.

### WORKING WITH TICKET

- Tickets will be created in associated with the contacts or deals when one or more services request received from Agent/customers that need to be fulfilled and/re resolved.
- Select the appropriate Pipeline for the tickets:
  - ✓ Client Support Pipeline: requesting for claim bill, request refund for overcharged bills...
  - ✓ Payment: resolved the payment problems.
  - ✓ Collect Document: gather all necessary document to upload.
  - ✓ Choose doctor: select /change PCP
  - ✓ Agent support: All support that Agent need, and usually created by Agent.
- Describe the details request in the ticket description.
- Assign ticket owner the same with deals owner.
- Assigned due date for due date. When need to change the due date, tickets need to be noted the reason for changing.
- Select the appropriate status to the ticket progress.
- Tickets need to be noted completed and closed when it's done.

**Note:** Pay close attention to the priority of the tickets and resolve it accordingly. Everyone needs to check notification on Dashboard every beginning of working day for the tickets assigned. If need to change to status or priority due to other unpredictable /uncontrol reasons.

**TASK:**

- Task is assignment that Agent or Manager assign to support to assist in a certain scenario. Support also can create Tasks for yourself to make sure you don't miss the certain required jobs.
- Every task usually a single job for support to complete.
- Tasks need to be associated with the related contactor deals.
- Task also have priority as the tickets: High, Medium, Low.

**WORKING WITH TASKS:**

- A Task need to have due date to complete. If the task is not set due date, the default due date is in 3 days.
- Notes created in Tasks for all activities, Log call, new information obtained... need to be recorded in the task section, in the order from newest to oldest date accordingly.
- When tasks are not complete by the due date, Tasks need to be noted the reason for changing due date.
- When tasks are completed, the assigner need to be notified and the tasks need to be closed

**Attention Remarks:** All the note and activities recorded in the Tickets /Tasks need to stay within the section of that Tickets/Tasks. Do not create a note or record information of ticket/tasks activities in the General Note section of the Main Contact or Deals.
